

**WITHOUT  
BARRIERS:  
INCLUSION FOR  
ALL IN SPORT**

**EÖTVÖS LORÁND UNIVERSITY FACULTY OF SPECIAL NEEDS EDUCATION**

# About the BIP

**Organiser:** Eötvös Loránd University Bárczi Gusztáv Faculty of Special Needs Education

Credits: 3 ECTS

**Date of physical mobility:** 14/07/2025 (MON) - 18/07/2025 (FRI)

**Venue:** Ecseri út 3, 1097 Budapest, Hungary

**Dates of virtual parts:**

1. session: TBA
2. session: TBA

---

**This BIP intends to enrich participants' theoretical knowledge of:**

- the physiological, psychological and social benefits of regular PA (physical activity),
- disability-specific benefits of regular PA,
- the definition of APA (adapted physical activity),
- diverse tools, equipment and methods of adapting PA,
- international movements of adapted sport (Paralympics, Deaflympics, Special Olympics).

# Parts of the BIP

## Introduction (online)

- introduction of the group and of the project,
- overview of the programme of physical mobility,
- discussion of practical arrangements (arrival, getting around in Budapest etc.)

## Physical mobility

- daily lectures on sport theory (from 9 to 12),
- daily practical sessions in APA (from 1 to 3) (e.g. introduction to doing sports blindfolded, trying sitting volleyball, wheelchair basketball etc.),
- planning and elaboration of team project

## Closing (online)

- presentation of team projects,
- evaluation and closing of project.

# Who's invited?

## Any student of higher education who:

- is a future PE teacher,
- future kindergarten/school teacher or teacher of students with disabilities,
- student of physiotherapy or kinesiology,
- is simply interested in adapted physical activity, and believes in the need for providing full social inclusion for individuals with disabilities.

## Participants are required to

- enjoy participation in physical activity,
- have a level of physical fitness which makes participation in different sports possible (students are not required to be extremely fit or sporty or to have a sporty background),
- feel committed to the social inclusion of all people, including individuals with people with disabilities,
- be open to taking part in simulation activities (e.g. doing different sports blindfolded or in a wheelchair)
- able to communicate fluently in English,
- participate actively in the whole project, including the online part and the physical mobility.
